Aqualon® Edge

Aqualon® Edge fabric is a quality product that can give years of enjoyable use. Aqualon Edge is a water-repellent, mildew resistant two-ply polyester duck fabric with pigmented hybrid vinyl resin top coating. Proper maintenance is important if maximum life of the end product is desired. Routine care is quite simple, but certain procedures are recommended:

Care and Cleaning Instructions:

1. Keep dirt, leaves and other debris from accumulating on the fabric surface. Washing down with a garden hose on a bright sunny day is recommended about once a month.
2. To remove dirt from either side of the material, use a soft brush and a mild soap solution (such as Ivory). Do not use bleach. Rinse thoroughly with clear water and let dry completely before storing or rolling. (If accidental tears occur, repair them as soon as possible.)
3. Do not store or roll up while wet. Be sure to clean and dry before storage. Mildew can grow during storage if moisture is present.
4. Avoid cleaning in a commercial car wash. Do not steam or pressure wash, if used for boat cover, keep cover secure while trailering.

***After 2 to 3 years of use, begin to treat the vinyl coating side of your cover with a silicone repellent spray, such as Aqua Tite. Once you begin treating it, you should treat it yearly.**

***Your poles are as important to care for as your material. Always ensure your poles are properly raised when the cover is installed. If poles are lowering on their own, ensure the small screws on clamps are tightened.**

***Aqualon Edge is fully waterproof. Vents provide air circulation, but if you store your boat away wet you are still at risk of mildew forming. Please take the first opportunity when the sun is out to remove your cover and “ransack” your boat: open all compartments and cushion storage areas, lay out life jackets and towels, lay cover in sun vinyl side down, to allow your boat to fully dry from the inside out before placing cover back on boat.**

Please Note: Boat Covers Are Not Built for Snowloads.

Aqualon® Edge

Marine Fabric

Seven Year Limited Warranty

Aqualon® Edge is warranted for a period of seven years (7) from the date of the installation in a marine cover, top or enclosure end uses. The warranty protects the end user from excessive loss of color or strength from normal exposure conditions including sunlight, mildew, rot and normal atmospheric chemicals which may render the fabric unserviceable. This warranty does not cover seam leakage, covers used on trailered boats, damage from Acts of God, vandalism, neglect or improper cleaning and improper use. Please see your Trivantage®, LLC representative for cleaning instructions.

In the unlikely event of fabric failure during the warranty period Graniteville Specialty Fabrics will supply the end product fabricator or Trivantage, LLC new fabric free of charge equal to the fabric used in the end use item. Labor and installation are not covered by this warranty. Graniteville Specialty Fabrics reserves the right to inspect the fabric or made up item of any warranty claim.

Except for the explicit warranties, herein, no other warranty, expressed or implied, including any implied warranty of merchantability of fitness for a particular use is made by Graniteville Specialty Fabrics. In no event shall Graniteville Specialty Fabrics be liable for damages to any person or property, or any consequential or incidental damages.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of consequential or incidental damage, so, the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

To get service, call the dealer from whom you purchased the product. The dealer will inspect the installation and process the claim through Trivantage, LLC and Graniteville Specialty Fabrics.
