Custom Shop Time + Material Pricing - A Custom Cover for an average V-Hull Boat Costs \$765 in materials and \$810 in labor for a total of \$1,547.50. We charge time + materials for every custom job just like this. Quality custom work is not for everyone. We understand price is a factor, but also know that quality materials, timeliness, service after the sale, standing behind our products and outstanding craftsmanship are as well. If price is your only factor, you can get a cheaply made cover on the internet.

**A quality Custom Ski Boat Cover on Standard Sized V-Hulls runs between \$1,400 and \$1,600.
Average Price is \$90 - \$95 / Linear Foot Depending on Size & Customizations**

Our business model is simple: we make a high quality, custom made product with the best warranty at a fair price.

We are the only shop in the Midwest that provides a limited lifetime warranty against manufacturer defects on our entire cover, not just the prorated warranty on the fabric. It doesn't matter if the cover is 20 years old; if a seam fails or a snap falls off, we will repair it free of charge until that cover is no longer serviceable. We use only high-quality materials in the fabrication of our covers and bring 30+ years of knowledge and experience to the table.
